Announcement of Periodic Review: Moody's Ratings announces completion of a periodic review of ratings of Faroe Islands, Government of

11 Sep 2026

Madrid, September 11, 2026 -- Moody's Ratings (Moody's) has completed a periodic review of the ratings of Faroe Islands and other ratings that are associated with this issuer.

The review was conducted through a rating committee held on 3 September 2026 in which we reassessed the appropriateness of the ratings in the context of the relevant principal methodology(ies), and recent developments.

This publication does not announce a credit rating action and is not an indication of whether or not a credit rating action is likely in the near future. Please see the Issuer page on https://ratings.moodys.com for the most updated credit rating action information and rating history.

Key Rating considerations and rationale are summarized below.

The Faroe Islands' Aa2 long-term issuer rating, with a stable outlook, and its aa3 Baseline Credit Assessment (BCA) reflect the entity's solid financial performance and prudent, sophisticated financial management. This is evidenced by positive operating margins, which is expected to average about 6% of operating revenue across the next three year period, and moderate debt levels of around 63% of operating revenue in 2025. We expect the Faroe Islands' finances to remain sound over the next three years. Although the economy relies heavily on fishing, exposing it to fluctuations in fish prices, strong wealth levels contribute to stability. High liquidity levels also provide credit support during economic shocks. The credit profile also incorporates our assessment of a strong likelihood that the Government of Denmark (Aaa stable) would intervene in a timely manner to prevent a default.

This document summarizes our view as of the publication date and will not be updated until the next periodic review announcement, which will incorporate material changes in credit circumstances (if any) during the intervening period.

The principal methodology used for this review was Regional and Local Governments published in May 2026. Please see the Rating Methodologies page on https://ratings.moodys.com for a copy of this methodology.

The net effect of any adjustments applied to rating factor scores or scorecard outputs under the primary methodology(ies), if any, was not material to the ratings addressed in this announcement.

This announcement applies only to EU rated, UK rated, EU endorsed and UK endorsed ratings. Non-EU rated, non-UK rated, non-EU endorsed and non-UK endorsed ratings may be referenced herein to the extent necessary, if they are part of the same organization list.

This publication does not announce a credit rating action. For any credit ratings referenced in this publication, please see the issuer/deal page on https://ratings.moodys.com for the most updated credit rating action information and rating history.
